

Elixir+

Revitalize · Repair · Renew

Cellular Wellness / NAD+ · 500 mg

A premium NAD+ (Nicotinamide Adenine Dinucleotide) formulation for IV use, developed to support cellular energy, repair and long-term vitality.

Elixir+ is a next-generation wellness formulation designed to support energy, repair, beauty and long-term vitality, inspired by advanced longevity science.

NAD+ works by helping cells turn food into energy inside the mitochondria. It activates enzymes that repair damaged DNA and protect cells from aging and stress, and supports healthy gene expression that allows cells to function properly.

As NAD+ levels decline with age, these processes slow and energy decreases. Restoring NAD+ helps restart these systems, supporting energy, repair and overall cell health.

KEY BENEFITS

- Boosts daily energy and stamina
- Supports brain function and focus
- Promotes youthful skin and tissue health
- Helps in detox and cellular cleansing
- Supports healthy aging
- Enhances recovery from stress and fatigue
- Improves overall vitality
- Supports the function of telomeres

COMPOSITION

Component	Quantity
Nicotinamide Adenine Dinucleotide (NAD+)	500 mg

RECOMMENDED USE

- For IV use only.
- As directed by the physician.

PACKAGING

Single vial, for IV use only.

STORAGE

As directed by the physician administering the infusion.

SAFETY INFORMATION: For use by or under the supervision of a registered medical practitioner only. This product is distributed exclusively through professional healthcare channels. Do not use if the tamper-evident seal is broken. Discontinue and consult a physician if any adverse reaction occurs.
